

# A Learning Healthcare System: Let the Patient Revolution Begin!

## 2016 Annual CAHSPR Conference May 10-12, 2016, Hilton Hotel (Toronto, ON)

CAHSPR is thrilled to be hosting the 2016 Conference in Toronto and focussing the theme of the conference on patient engagement. With an anticipated audience of 600+ participants, CAHSPR expects this to be the most highly attended conference yet.

The keynote panel sessions have all been designed to focus on a variety of important topics related to patient engagement, and a special sub-plenary session was developed to discuss the role of patient stories. A patient voice has been included on each panel as a presenter which will ensure this most critical perspective is included in the discussions. To read more about these sessions, see below.

### Patient Discount Available!

CAHSPR values the participation of patients at the conference. A special discounted rate of 50% is available for patients who wish to register to attend. The patient discount is provided for individuals who have been a patient in the Canadian healthcare system and have subsequently become active to represent the voice of the patient to the health system. To obtain the patient discount code, please contact Nikki Mosca at [nikki@t2fe.com](mailto:nikki@t2fe.com)

### Learn More About CAHSPR

CAHSPR's vision is for a vibrant community of researchers and decision makers working together toward evidence-based health care and health policy. CAHSPR's mission is to provide a multidisciplinary association fostering and supporting 1) Linkages between researchers and decision makers; 2) Knowledge translation and exchange; 3) Education and training; and 4) Advocacy for research and its more effective use in planning, practice and policy-making.
